

Martin Zaluski earned his Doctor of Veterinary Medicine from Michigan State University in 1997. He worked for 3 years as a large animal veterinarian with a focus on dairy production medicine. In 2000, Dr. Zaluski left private practice and joined the Michigan Department of Agriculture to address Michigan's growing problem with tuberculosis in deer and cattle. In that position, he conducted surveillance and other regulatory activities.

In 2002, Dr. Zaluski joined North Carolina Department of Agriculture & Consumer Services (NCDA&CS), Division of Emergency Programs as a Public Health Liaison. In this position, he was involved in coordinating veterinary and public health efforts as they relate to natural and terrorist incidents. This included supervision of NCDA&CS Emergency Programs Division field veterinarians as they built capability with the Public Health Regional Surveillance Teams (PHRST), other state response teams, and other state agencies. Dr. Zaluski was one of four NCDA&CS veterinarians funded by the CDC Bioterrorism Grant through the Division of Public Health, Department of Health and Human Services in North Carolina.

In October 2005, Dr. Zaluski was appointed to the position of Director of the Emergency Programs Division at NCDA&CS. The Division is nationally recognized as a leader in agricultural preparedness. The Division excels in Geographic Information Systems (GIS) technology, business continuity planning for a catastrophic livestock disease and disposal methodologies should it become necessary to euthanize large numbers of livestock. In his current position, Dr. Zaluski represents NCDA&CS at the local, state and national level in discussing preparedness.

Marty Zaluski is married to Heather Zaluski, MD and has three children ages 1, 5 and 8.
